

HOIST MOUNTING SERVICES

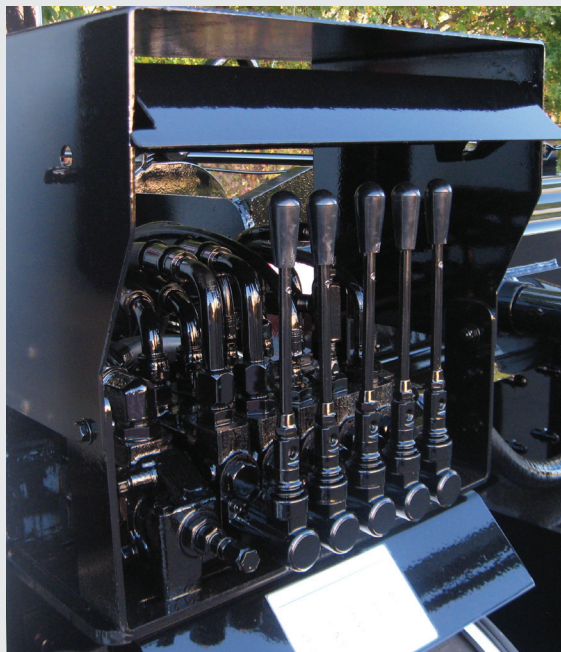

Trust CES for professional, efficient and skilled installation and maintenance of your new hoist. As the Galbreath Authorized Service Center for NC, SC and GA, our factory trained, certified technicians perform custom and specialty hoist installations per manufacturer specified processes.

From the moment CES installs your equipment our service technicians are always available to assist you with advice and support. Our slogan, "We take care of the customer, the rest takes care of itself" is our recipe for success. Please let us hear from you soon to discuss how our team here at CES can service your hoist equipment needs.

PROFESSIONAL HOIST INSTALLATION & MAINTENANCE

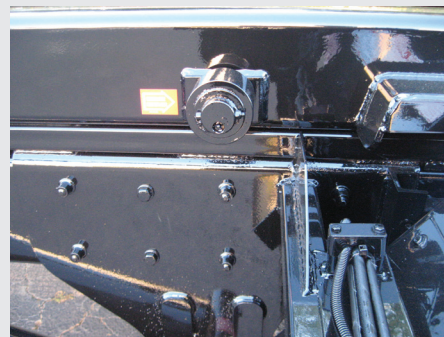

Custom fabricated work light guards on rear light bumper to protect work lights

Integrated main hydraulic control valve with taper mounting platform

Integrate valve reduces hydraulic fluid temperature and the need to add a diverter block and another control valve

Mounted with genuine Alcoa huck bolts and collars

Both hoist and tarp system are painted raven black with sherwin williams high gloss enamel paint

Custom fender mounts that are huck bolted to chassis frame rail

The CES Advantage.
